

OP Credentialing and Enrollment Services

Expert Solutions to Streamline Your Path to Revenue

No growth-minded medical practice can ignore medical credentialing and expect to thrive in the healthcare industry. In the complex world of healthcare payments, proper credentialing and payer enrollments are key to securing timely and accurate reimbursements.

Validating a provider's credentials and enrolling them with insurance carriers can be overwhelming, but our team of experts makes it simple and efficient for you.

When done right, credentialing can help you:

- ✓ Get reimbursed faster
- ✓ Maintain compliance
- ✓ Eliminate errors that create risk
- ✓ Improve the quality of care

Don't have the time or expertise to tackle these two critical tasks in your pediatric practice? We've got the perfect solution!

*Credentialing and Enrollment Services can be sold standalone separate from OP RCM services.

OP Credentialing and Enrollment Services

Reduce Time, Increase Productivity

Credentialing and payer enrollments are notoriously time-consuming, and oftentimes, not very straightforward. Don't let the paperwork and bureaucratic red tape slow you down. Our services are tailored to reduce the time-intensive burden, so you can focus on what truly matters – patient care.

Benefit:

Faster credentialing means quicker access to revenue, ensuring financial stability for your practice.

Minimize Errors, Maximize Success

Accurate and error-free applications are vital for successful credentialing. One mistake could result in delays, rejections, and denied claims. Our seasoned team is well-versed in the intricate details of payer applications, industry rules, and regulations, ensuring that your submissions are precise and error-free.

Benefit:

We eliminate the headache of paperwork, keeping your credentialing error-free and your revenue flowing.

Prevent Deactivation, Ensure Consistent Income

The consequences of missing a re-enrollment deadline or failing to update your license or certification can be devastating. Providers could be deactivated from payer files, leading to rejections, denials, and lost revenue. Our proactive approach keeps your credentials up-to-date and safeguards your financial success.

Benefit:

Prevent costly deactivations and maintain a consistent revenue stream with our expert credentialing services.

Don't Let Delayed or Denied Reimbursements Hold You Back

Proper credentialing is the key to unlocking the revenue your pediatric practice deserves. Failing to do it correctly can result in insurance carriers refusing to reimburse you for all of your work, causing financial strain and missed revenue opportunities. Don't risk "hoping" you did it right. Let us take care of your credentialing and have peace of mind knowing it's done right – the first time.

Benefit:

Prevent unnecessary financial strain and missed revenue opportunities.

Relax. We've got this!

Credentialing and enrollment can be complicated. But they don't have to be. OP Credentialing partners with you from strategy to implementation and beyond. Our end-to-end services include first-time setups to re-enrollments, so you never have to worry about your payments again.
